SWITCH TO SMART LIVING

Who We Are

IOTCASA is redefining modern living by
bringing smart home automation into every Indian
household, seamlessly, affordably and intelligently.
With deep expertise in IoT and smart systems, our
solutions empower homes to be responsive, intuitive
and effortlessly controllable, all without rewiring
existing infrastructure.

Our Mission

To make futuristic, reliable smart home experiences
accessible to all, marrying elegance, simplicity and
powerful automation tailored for Indian living.

Vision Ahead

To lead India into a future of intelligent homes, where
comfort, security, sustainability and personalization
converge. Our goal is to be at the heart of every
modern home.

✓ **Adaptive Automation:**
Adjusts lighting, temperature, and other
settings based on real-time conditions.

✓ **Custom Modes:**
Set Kids Mode, Pet Mode, Sleep Mode,
or Work Mode for a personalized experience.

✓ **Scene Control:**
Instantly switch to Relax, Coffee, or
Movie Mode with a single touch.

✓ **Versatile Placement:**
Can be placed on a side table, wall, or ceiling
for seamless integration. Enjoy a smarter,
hassle-free home with intelligent automation.

IOT'CASA

Smart Dimming

Perfect Light, Every Time.

Effortlessly control the brightness of your space with intelligent dimming solutions.

Advanced Driver Support:

Compatible with industry-leading 0-10V dimming drivers such as Osram, Fulham, and Skydance for reliable, flicker-free performance.

Cost Optimization:

Eliminates the need for expensive wiring and controllers like DALI. Reduces installation and operational costs without compromising functionality.

Custom Control Protocol:

Utilizes 2 twisted pair wires or existing wiring for seamless integration. Achieves individual light control or group control with precision and flexibility.

Scalable and Flexible:

Designed for small-scale and large-scale applications, ensuring easy expansion. Adapts to various lighting scenarios, from residential to commercial spaces.

IOT CASA

Smart Curtain Controller

Custom Curtain Automation for Every Space

We offer customized curtain motors and tracks, including Tubular, Roman, Honeycomb, and Wooden Blinds. Designed for various configurations like center or side open, upside-down, and skylight, our solutions are fully tailored to your needs.
